## WORK EXPERIENCE

Founder / Full Stack Developer 2024 - Current

### 3 Yellow Circles - Web & App Solutions

- Lead end-to-end development of responsive websites using HTML, CSS, JavaScript, Node.js, and MongoDB
- Direct branding, visual identity, and design strategy to align with client goals
- Manage client relationships from discovery to delivery with tailored digital solutions
- Oversee projects, streamline workflows, and maintain reusable code for efficient development
- Handle day-to-day business operations including marketing, invoicing, and strategic planning for growth

Trainer & Assessor of Web Development 2025 - Current

### Equinim College of Technology | Online

- Prepare fun and engaging, yet, in-depth virtual classes teaching web development to a wide range of individuals
- Train students in a front-end capacity utilizing HTML, CSS, Javascript & Bootstrap
- Guide students through making their own complete websites with backend functionality
- Evaluated & assessed students assessment activities, supporting them where necessary

Production Manager 2024 - 2025

### Newcastle Made Joinery | Toronto

- Structure and organise workflow to ensure targets and deadlines are hit
- Liaise with director, project managers and external stake holders to discuss project details
- Manufacture high-end joinery projects using a variety of tools and machinery
- Operate and program CNC machines to create custom cutting patterns
- Train and develop staff to reach their full potential in order to upskill the whole team and maximise efficiency
- Hold regular meetings and walk the team through complex problem-solving strategies for future projects

Detailed Joiner / Staff Training Facilitator 2022 - 2024

### Pluim Joinery | Lisarow

- Liaised with staff and supervisors to grasp project requirements, ensuring prompt completion.
- Accurately calculated material estimates for client quotes.
- Specialized in training staff and apprentices, actively developing their skills and implementing upskilling programs, including teaching CNC programming.
- Demonstrated leadership and collaborated closely with management to meet and exceed project deadlines.
- Prioritized staff development by implementing strategies to enhance task efficiency.

Teacher of Cabinet Making 2022 - 2023

### TAFE NSW | Lidcombe

- Prepared friendly classroom environments, fostering critical thinking through diverse teaching techniques.
- Developed and presented comprehensive lesson plans using both traditional and modern teaching methods.
- Enhanced student understanding with focused strategies and hands-on activities.
- Utilized behavior management skills to create a positive learning atmosphere, crafting engaging lesson plans for inclusive learning through lectures and discussions.
- Evaluated projects and assignments for student progress.

Detailed Joiner / Foreman 2018 - 2022

### Logic Joinery | Fountainsdale

- Managed and supervised teams to optimize factory workflow, providing training for apprentices and staff.
- Oversaw projects, ensuring seamless operations and addressing challenges as they arose.
- Collaborated with directors and project managers to meet deadlines and exceed expectations.
- Applied managerial skills in a detailed joinery environment, handling various materials like solid timber, corian, veneer, manufactured board, and laminate.
